FUND SUMMARY

Investment Objective

The Athena Value Fund (the "Fund") seeks long-term capital appreciation.

Fees and Expenses of the Fund

This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund. You may qualify for sales charge discounts on purchases of Class A shares if you and/or your family invest, or agree to invest in the future, at least \$25,000 in the Fund. More information about these and other discounts is available from your financial professional and in **How to Purchase Shares** on page 12 of the Fund's Prospectus.

Shareholder Fees (fees paid directly from your investment)	Class A	Class C	Class I
Maximum Sales Charge (Load) Imposed on Purchases (as a % of offering price)	5.75%	None	None
Maximum Deferred Sales Charge (Load) (as a % of the of the original purchase price)	None	None	None
Maximum Sales Charge (Load) Imposed on Reinvested Dividends and other Distributions	None	None	None
Redemption Fee (as a % of amount redeemed)	None	None	None
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment)			
Management Fees	1.00%	1.00%	1.00%
Distribution and/or Service (12b-1) Fees	0.25%	1.00%	None
Other Expenses	7.31%	7.31%	7.31%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%	0.01%	0.01%
Total Annual Fund Operating Expenses	8.57%	9.32%	8.32%
Fee Waiver and/or Expense Reimbursement ⁽²⁾	(7.06)%	(7.06)%	(7.06)%
Total Annual Fund Operating Expenses After Fee Waiver	1.51%	2.26%	1.26%

(1) Acquired Fund Fees and Expenses are the indirect costs of investing in other investment companies. The operating expenses in this fee table will not correlate to the expense ratio in the Fund's financial highlights because the financial highlights include only the direct operating expenses incurred by the Fund.

(2) Princeton Fund Advisors, LLC has contractually agreed to waive management fees and to make payments to limit Fund expenses, through at least August 31, 2017, so that the total annual operating expenses (exclusive of any front-end or contingent deferred loads, (ii) brokerage fees and commissions, (iii) acquired fund fees and expenses, (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser)) do not exceed 1.50% , 2.25% and 1.25% of average daily net assets attributable to Class A, Class C and Class I shares, respectively. These fee waivers and expense reimbursements are subject to possible recoupment from the Fund in future years on a rolling three-year basis (within the three years after the fiscal year end in which the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. This agreement may be terminated only by the Fund's Board of Trustees, on 60 days written notice to Princeton Fund Advisors, LLC.

Example: This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds.

The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based upon these assumptions your costs would be:

Class	1 Year	3 Years	5 Years	10 Years
Class A	\$720	\$2,332	\$3,832	\$7,137
Class C	\$229	\$2,062	\$3,741	\$7,342
Class I	\$128	\$1,798	\$3,358	\$6,828

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 34% of the average value of its portfolio.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by investing primarily in common stock of issuers of any capitalization which provide investment exposure to U.S. domestic equity markets. However, the Fund may invest up to 10% of its net assets in securities of foreign issuers, and intends to make such investments primarily through American Depository Receipts (ADRs).

The Fund's adviser, Princeton Fund Advisors, LLC (the "Adviser") is responsible for regulatory oversight of the Fund and oversight of the investment portfolio. The Adviser has delegated management of the Fund's portfolio to AthenaInvest Advisors LLC (the "Sub-Adviser"). The Sub-Adviser is responsible for securities selection and trade execution.

The Sub-Adviser seeks to achieve the Fund's investment objective by purchasing equity securities which it believes are trading below their true value. The Sub-Adviser uses a proprietary portfolio management approach which seeks to identify mispriced securities by measuring behavioral factors such as management confidence, analyst confidence, creditor confidence and market overreaction. Stocks are screened by the Sub-Adviser, which will evaluate many factors, including the following, when selecting an investment: (i) balance sheet ratios, (ii) projected earnings, (iii) sales and revenues, (iv) dividends, (v) price ratios, and (vi) trading volume. Securities that meet the Sub-Adviser's criteria are then considered for inclusion in the portfolio based on overall portfolio construction metrics which include, but are not limited to, attractiveness relative to other securities which meet the criteria, potential dividend income, and sector weightings.

The Sub-Adviser seeks to maintain investments among and across economic sectors under normal market conditions but may take more concentrated positions in certain sectors than its benchmark, the S&P 500 Index, depending on the aggregation of the portfolio's individual security selections. The S&P 500 Index is an index of 500 U.S. stocks chosen for market size, liquidity and industry grouping, among other factors. The S&P 500 is designed to be a leading indicator of U.S. equities and is meant to reflect the risk/return characteristics of the large cap universe. The Sub-Adviser will consider the following factors when selling investments in the Fund's portfolio: (i) whether the securities continue to meet all of the investment criteria; (ii) attractiveness of the security versus other qualifying securities not currently in the portfolio; (iii) a reduced or complete elimination of dividend payment; and (iv) changes in equity market return expectations.

The Fund may also invest in publicly-traded Master Limited Partnerships ("MLPs"). MLPs are typically engaged in one or more aspects of the exploration, production, processing, transmission, marketing, storage or delivery of energy-related commodities such as natural gas, natural gas liquids, coal, crude oil or refined petroleum products. Holders of MLP units have limited control and voting rights on matters affecting the partnership. The Fund does not intend to invest in illiquid MLPs and will limit its investments in publicly traded MLPs to no more than 25% of net assets. The Fund may also hold money market instruments, cash, and other cash equivalents.

The Adviser's investment oversight process combines risk management, due diligence and portfolio monitoring. The Adviser monitors the Fund's strategies as-executed for investment performance and achievement of the Fund's risk objectives. The Fund's investment portfolio may be rebalanced as a result of the Adviser's monitoring policies according to the Fund's investment objectives, policies or restrictions. The Adviser has compliance and regulatory oversight and supervisory responsibilities for the Fund's securities portfolio, however day-to-day management of the Fund is delegated to the Sub-Adviser as described above.

The Fund is "non-diversified" for purposes of the Investment Company Act of 1940, as amended, which means that the Fund may invest in fewer securities at any one time than a diversified fund.

Distribution Policy

The level of distributions (including any return of capital) is not fixed but, except during periods of substantial asset growth, is expected to be in a range equivalent to 2% to 3.5% of the Fund's current net asset value per share, expressed as an annual rate. For more information about the Fund's distribution policy, please turn to "Distribution Policy and Goals" on page 5 of this Prospectus.

Principal Investment Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.

- ***Distribution Policy Risk:*** The Fund's distribution policy is not designed to guarantee distributions that equal a fixed percentage of the Fund's current net asset value per share. Shareholders receiving periodic payments from the Fund may be under the impression that they are receiving net profits. However, all or a portion of a distribution may consist of a return of capital (i.e. from your original investment). Shareholders should not assume that the source of a distribution from the Fund is net profit. Shareholders should note that return of capital will reduce the tax basis of their shares and potentially increase the taxable gain, if any, upon disposition of their shares.
- ***Foreign Investment Risk:*** Foreign investing in equity securities or notes of foreign issuers involves risks not typically associated with U.S. investments, including adverse political, social and economic developments, less liquidity, greater volatility, less developed or less efficient trading markets, political instability and differing auditing and legal standards.
- ***Interest Rate Risk:*** A rise in interest rates can cause a decline in the value of certain securities including any Master Limited Partnerships owned by the Fund.
- ***Issuer-Specific Risk:*** The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- ***Limited History of Operations:*** The Fund has a limited history of operations for investors to evaluate.
- ***Management Risk:*** The net asset value of the Fund changes daily based on the performance of the securities in which it invests. The portfolio managers' judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the judgments about the potential performance of the Fund's investment portfolio, within the Fund's investment policies and risk parameters, may prove incorrect and may not produce the desired results.
- ***Market Risk:*** The net asset value of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities which may be more volatile and carry more risk than some other forms of investment. The price of securities may rise or fall because of economic or political changes. Security prices in general may decline over short or even extended periods of time. Market prices of securities in broad market segments may be adversely affected by price trends in energy commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- ***Master Limited Partnerships and Related Securities Risk:*** The Fund may invest in Master Limited Partnerships ("MLPs") or MLP-related securities, which involve risks different from those of investing in common stock, including risks related to limited control and limited rights to vote on matters affecting the MLP or MLP-related security, risks related to potential conflicts of interest between an MLP and the MLP's general partner, cash flow risks, dilution risks and risks related to the general partner's limited call right. MLPs are generally considered interest-rate sensitive investments. During periods of interest rate volatility, these investments may not provide attractive returns. Depending on the state of interest rates in general, the use of MLPs could enhance or harm the overall performance of the Fund.
 - ***MLP Tax Risk:*** MLPs typically do not pay U.S. federal income tax at the partnership level. Instead, each partner is allocated a share of the partnership's income, gains, losses, deductions and expenses. A change in current tax law or in the underlying business mix of a given MLP could result in an MLP being treated as a corporation for U.S. federal income tax purposes, which would result in such MLP being required to pay U.S. federal income tax on its taxable income. The classification of an MLP as a corporation for U.S. federal income tax purposes would have the effect of reducing the amount of cash available for distribution by the MLP. Thus, if any of the MLPs owned by the Fund were treated as corporations for U.S. federal income tax purposes, it could result in a reduction of the value of your investment in the Fund and lower income, as compared to an MLP that is not taxed as a corporation.
- ***Non-Diversification Risk:*** As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. Because a relatively high percentage of the assets of the Fund may be invested in the securities of a limited number of issuers, the value of shares of the Fund may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company. This fluctuation, if significant, may affect the performance of the Fund.
- ***Small and Medium Capitalization Company Risk:*** The value of small or medium capitalization company securities may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market in general.

Performance

Because the Fund has less than a full calendar year of investment operations, no performance information is presented for the Fund at this time. In the future, performance information will be presented in this section of this Prospectus. Also, shareholder reports containing financial and performance information will be mailed to shareholders semi-annually. Updated performance information will be available at no cost by visiting www.athenavaluefund.com or by calling 1-888-868-9501.

Investment Adviser: Princeton Fund Advisors, LLC

Sub-Adviser: AthenaInvest Advisors LLC

Portfolio Managers: C. Thomas Howard, PhD, CEO and Director of Research at AthenaInvest
Andrew C. Howard, Vice President of AthenaInvest

Each served as a portfolio manager of the Fund from inception until May 2016 and then resumed as portfolio managers in August 2016.

Purchase and Sale of Fund Shares

You may purchase and redeem shares of the Fund on any day that the New York Stock Exchange is open for trading. The minimum initial investment in Class A, Class I and Class C shares is \$2,500, \$100,000, and \$2,500, respectively. There is a minimum amount of \$100 for subsequent investment in any share class.

Tax Information

Dividends and capital gain distributions you receive from the Fund, whether you reinvest your distributions in additional Fund shares or receive them in cash, are taxable to you at either ordinary income or capital gains tax rates unless you are investing through a tax-deferred plan such as an IRA or 401(k) plan. However, these dividend and capital gain distributions may be taxable upon their eventual withdrawal from tax-deferred plans.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

ADDITIONAL INFORMATION ABOUT PRINCIPAL INVESTMENT STRATEGIES AND RELATED RISKS

Investment Objective

The Fund seeks long-term capital appreciation. The Fund's investment objective may be changed by the Fund's Board of Trustees without shareholder approval upon 60 days written notice to shareholders.

Principal Investment Strategies

The Fund seeks to achieve its investment objective by investing primarily in common stock of issuers of any capitalization that provide investment exposure to U.S. domestic equity markets. However, the Fund may also invest in up to 10% of its net assets in securities of foreign issuers, and intends to make such investments primarily through American Depositary Receipts ("ADRs").

The Fund may also invest at times in Master Limited Partnerships: ("MLPs") and intends to limit any such investments to publicly-traded MLPs. MLPs are typically engaged in one or more aspects of the exploration, production, processing, transmission, marketing, storage or delivery of energy-related commodities such as natural gas, natural gas liquids, coal, crude oil or refined petroleum products. An investment in MLP units differs from an investment in the securities of a corporation. Holders of MLP units have limited control and voting rights on matters affecting the partnership. In addition, there are certain tax risks associated with an investment in MLP units and conflicts of interest exist between common unit holders and the general partner, including those arising from incentive distribution payments. The Fund intends to be taxed as a registered investment company ("RIC"), and comply with all RIC-related restrictions and therefore any such investments in publicly-traded MLPs would be limited to no more than 25% of its net assets, thereby avoiding taxation as a C-corporation under the Internal Revenue Code.

As the Fund's adviser, Princeton Fund Advisors, LLC is responsible for regulatory oversight of the Fund and oversight of the investment portfolio. The Adviser delegates management of the Fund's portfolio to AthenaInvest Advisors LLC as the Sub-Adviser. The Sub-Adviser is responsible for securities selection and trade execution.

Princeton Oversight Process

The Adviser's investment oversight process combines risk management, due diligence and portfolio monitoring. The Adviser monitors the Fund's strategies as executed for investment performance and achievement of the Fund's risk objectives. The Fund's investment portfolio may be rebalanced as a result of the Adviser's monitoring policies in order to avoid violating its investment objectives, policies or restrictions. The Adviser has compliance and regulatory oversight and supervisory responsibilities for the Fund. A summary of the Adviser's process is as follows:

- Working with the Sub-Adviser to set the Fund's overall investment objectives
- Monitoring the performance of the investment portfolio, including compliance with the investment objectives, policies, and restrictions of the Fund
- Implementing procedures to ensure that the investment portfolio complies with the Fund's investment objectives, policies and restrictions
- Monitoring the investment portfolio to assure that investments made are consistent with the Fund's strategy and regulatory restrictions

Athena's Investment Process

The Sub-Adviser seeks to achieve the Fund's investment objective by actively investing in equity securities that display management confidence, analyst confidence, and creditor confidence and that it believes are trading below their true value. The Sub-Adviser believes such equity securities tend to be overlooked by investors and can often be purchased at attractive valuations. Stocks are screened based on balance sheet ratios, projected earnings, sales and revenues, dividends, price ratios, and trading volume in relation to the sized of the strategy.

The Sub-Adviser uses a proprietary portfolio management approach which seeks to identify mispriced securities by measuring behavioral factors such as management confidence, analyst confidence, creditor confidence and market overreaction. Securities that meet the Sub-Adviser's criteria are then considered for inclusion in the portfolio based on overall portfolio construction metrics which include, but are not limited to, attractiveness relative to other securities which meet the criteria, potential dividend income and sector weightings.

The Sub-Adviser seeks to maintain diversification among and across various economic sectors under normal market conditions but may take more concentrated positions in certain sectors than its benchmark, the S&P 500 Index, depending on the aggregation of the portfolio's individual security selections.

The Sub-Adviser utilizes its proprietary process to select securities for the portfolio based on a variety of factors. These factors include, but are not limited to, balance sheet ratios, projected earnings, sales and revenues, dividends, price ratios, and trading volume. The process also considers behavioral factors such as management confidence, analyst confidence, creditor confidence and market overreaction. Securities that meet the Sub-Adviser's criteria are then considered for inclusion in the portfolio based on overall portfolio construction metrics, which include, but are not limited to, attractiveness relative to other securities which meet the criteria, potential dividend income and sector weightings. The Sub-Adviser will consider the following factors when selling investments in the Fund's portfolio: (i) whether the securities continue to meet all of the investment criteria; (ii) attractiveness of the security versus other qualifying securities not currently in the portfolio; (iii) a reduced or complete elimination of dividend payment; and (iv) changes in equity market expected return readings.

Distribution Policy and Goals: Except during periods of substantial asset growth, the level of distributions (including any return of capital) is not fixed but is expected to be in a range equivalent to 2% to 3.5% of the Fund's current net asset value per share, expressed as an annual rate. Additionally, the Fund's distribution policy is not designed to generate or guarantee distributions that equal a fixed percentage of the Fund's current net asset value per share.

The Fund generally distributes to shareholders substantially all of its net income (which includes, for example, interest and dividends) as well as substantially all of its net capital gains (that is, long-term capital gains from the sale of portfolio securities and short-term capital gains from both the sale of portfolio securities). In addition, pursuant to its distribution policy, the Fund may make distributions that are treated as a return of capital. Return of capital is the portion of a distribution that is the return of your original investment dollars in the Fund. A return of capital is not taxable to a shareholder unless it exceeds a shareholder's tax basis in the shares.

Returns of capital reduce a shareholder's tax cost (or "tax basis"). Once a shareholder's tax basis is reduced to zero, any further return of capital would be taxable. Shareholders receiving periodic payments from the Fund may be under the impression that they are receiving net profits. However, all or a portion of a distribution may consist of a return of capital (i.e. from your original investment). Shareholders should not assume that the source of a distribution from the Fund is net profit. Shareholders should note that return of capital will reduce the tax basis of their shares and potentially increase the taxable gain, if any, upon disposition of their shares. As required under the 1940 Act, the Fund will provide a notice to shareholders at the time of distribution when such distribution does not consist solely of net income. Additionally, each distribution payment will be accompanied by a written statement that discloses the source or sources of each distribution. The IRS requires you to report these amounts, excluding returns of capital, on your income tax return for the year declared. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) capital gains and (3) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) capital gains and (3) return of capital for tax purposes. An additional distribution may be made in December, and other additional distributions may be made with respect to a particular fiscal year in order to comply with applicable law. Distributions declared in December, if paid to shareholders by the end of January, are treated for federal income tax purposes as if received in December.

Principal Investment Risks

As with all mutual funds, there is the risk that you could lose money through your investment in the Fund. The Fund is not intended to be a complete investment program. Many factors affect the Fund's net asset value and performance.

- ***Distribution Policy Risk:*** The Fund's distribution policy is not designed to guarantee distributions that equal a fixed percentage of the Fund's current net asset value per share. Shareholders receiving periodic payments from the Fund may be under the impression that they are receiving net profits. However, all or a portion of a distribution may consist of a return of capital (i.e. from your original investment). Shareholders should not assume that the source of a distribution from the Fund is net profit. Shareholders should note that return of capital will reduce the tax basis of their shares and potentially increase the taxable gain, if any, upon disposition of their shares. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) capital gains and (3) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) capital gains and (3) return of capital for tax purposes.
- ***Foreign Investment Risk:*** The Fund could be subject to greater risks because the Fund's performance may depend on factors other than the performance of securities of U.S. issuers. Changes in foreign economies and political climates are more likely to affect the Fund than a mutual fund that invests exclusively in U.S. dollars and U.S. Issuers. The value of foreign currency denominated securities or foreign currency contracts is also affected by the value of the local currency relative to the U.S. dollar. There may also be less government supervision of foreign markets, resulting in non-uniform accounting practices and less publicly available information about issuers of foreign currency denominated securities. The value of foreign investments, including foreign currency denominated investments, may be affected by changes in exchange control regulations, application of foreign tax laws (including withholding tax), changes in governmental administration or economic or monetary policy (in this country or abroad) or changed circumstances in dealings between nations. Investments in foreign issues, whether denominated in U.S. dollars or foreign currencies, could be affected by other factors not present in the United States, including expropriation, armed conflict, confiscatory taxation, and potential difficulties in enforcing contractual obligations.
- ***Issuer-Specific Risk:*** The value of a specific security can be more volatile than the market as a whole and can perform differently from the value of the market as a whole. The value of securities of smaller issuers can be more volatile than those of larger issuers. The value of certain types of securities can be more volatile due to increased sensitivity to adverse issuer, political, regulatory, market, or economic developments.
- ***Limited History of Operations:*** The Fund has a limited history of operations for investors to evaluate. Mutual funds and their advisers are subject to restrictions and limitations imposed by the Investment Company Act of 1940, as amended, and the Internal Revenue Code that do not apply to an adviser's management of individual and institutional accounts.
- ***Management Risk:*** The net asset value of the Fund changes daily based on the performance of the securities in which it invests. The portfolio managers' judgments about the attractiveness, value and potential appreciation of particular asset classes and securities in which the Fund invests may prove to be incorrect and may not produce the desired results. Additionally, the judgments about the potential performance of the Fund's investment portfolio, within the Fund's investment policies and risk parameters, may prove incorrect and may not produce the desired results.

- *Market Risk:* The net asset value of the Fund will fluctuate based on changes in the value of the securities in which the Fund invests. The Fund invests in securities which may be more volatile and carry more risk than some other forms of investment. The price of securities may rise or fall because of economic or political changes. Security prices in general may decline over short or even extended periods of time. Market prices of securities in broad market segments may be adversely affected by price trends in energy commodities, interest rates, exchange rates or other factors wholly unrelated to the value or condition of an issuer.
- *Master Limited Partnerships and Related Securities Risk:* The Fund may invest in MLP or MLP-related investments, at times, and any such investments are expected to be focused in the mid-stream energy sector. An investment in MLP units involves certain risks which differ from an investment in the securities of a corporation. Holders of MLP units have limited control and voting rights on matters affecting the partnership. In addition, there are certain tax risks associated with an investment in MLP units and conflicts of interest exist between common unit holders of MLPs and the general partner, including those arising from incentive distribution payments. Additional risks of MLPs include the following: a significant increase or decrease in the production of natural gas, natural gas liquids, crude oil, coal or other energy commodities or a significant increase or decrease in the volume of such commodities available for transportation, mining, processing, storage or distribution may adversely impact the financial performance of MLPs. To maintain or grow their revenues, these companies need to maintain or expand their reserves through exploration of new sources of supply, through the development of existing sources, through acquisitions, or through long-term contracts to acquire reserves, and maintain stable pricing. The financial performance of MLPs may be adversely affected if an MLP, or the companies to whom it provides the service, are unable to cost-effectively acquire additional reserves sufficient to replace the natural decline. Various governmental authorities have the power to enforce compliance with regulations and the permits issued under them, and violators are subject to administrative, civil and criminal penalties, including civil fines, injunctions or both. Stricter laws, regulations or enforcement policies could be enacted in the future which would likely increase compliance costs and may adversely affect the financial performance of MLPs. Volatility of commodity prices, which may lead to a reduction in production or supply, may also negatively impact the performance of MLPs. MLPs are also subject to risks that are specific to the industry they serve. MLPs that provide crude oil, refined product, natural gas liquids and natural gas services are subject to supply and demand fluctuations in the markets they serve which will be impacted by a wide range of factors, including fluctuating commodity prices, weather, increased conservation or use of alternative fuel sources, increased governmental or environmental regulation, depletion, rising interest rates, declines in domestic or foreign production, accidents or catastrophic events, and economic conditions, among others. As a partnership, an MLP has no tax liability at the entity level. If, as a result of a change in current law or a change in an MLP's business, an MLP were treated as a corporation for federal income tax purposes, such an MLP would be obligated to pay federal income tax on its income at the corporate tax rate. If an MLP were classified as a corporation for federal income tax purposes, the amount of cash available for distribution by the MLP would be reduced and distributions received by investors would be taxed under federal income tax laws applicable to corporate dividends (as dividend income, return of capital, or capital gain). Therefore, treatment of an MLP as a corporation for federal income tax purposes would result in a reduction in the after-tax return to investors, as compared to an MLP that is not taxed as a corporation, likely causing a reduction in the value of Fund shares.
- *Non-Diversification Risk:* As a non-diversified fund, the Fund may invest more than 5% of its total assets in the securities of one or more issuers. Because a relatively high percentage of the assets of the Fund may be invested in the securities of a limited number of issuers, the value of shares of the Fund may be more sensitive to any single economic, business, political or regulatory occurrence than the value of shares of a diversified investment company. This fluctuation, if significant, may affect the performance of the Fund.
- *Small and Medium Capitalization Company Risk:* The value of small or medium capitalization company securities may be subject to more abrupt or erratic market movements than those of larger, more established companies or the market in general. These companies may have narrower markets, limited product lines, fewer financial resources, and they may be dependent on a limited management group. Investing in lesser-known, small and medium capitalization companies involves greater risk of volatility of the Fund's net asset value than is customarily associated with larger, more established companies.

Temporary Investments

To respond to adverse market, economic, political or other conditions, the Fund may invest 100% of its total assets, without limitation, in high-quality short-term debt securities and money market instruments. These short-term debt securities and money market instruments include: shares of money market mutual funds, commercial paper, certificates of deposit, bankers' acceptances, U.S. Government securities and repurchase agreements. While the Fund is in a defensive position, the opportunity to achieve its investment objective will be limited. Furthermore, to the extent that the Fund invests in money market mutual funds for cash positions, there will be some duplication of expenses because the Fund pays its pro-rata portion of such money market funds' advisory fees and operational fees. The Fund may also invest a substantial portion of its assets in such instruments at any time to maintain liquidity or pending selection of investments in accordance with its policies.

Portfolio Holdings Disclosure

A description of the Fund's policies regarding the release of portfolio holdings information is available in the Fund's Statement of Additional Information. The Fund may, from time to time, make available month-end portfolio holdings information on the website www.athenavaluefund.com. If month-end portfolio holdings are posted to the website, they are expected to be approximately 60 days old and remain available until new information for the next month is posted. Shareholders may request portfolio holdings schedules at no charge by calling 1-888-868-9501.

Cybersecurity

The computer systems, networks and devices used by the Fund and its service providers to carry out routine business operations employ a variety of protections designed to prevent damage or interruption from computer viruses, network failures, computer and telecommunication failures, infiltration by unauthorized persons and security breaches. Despite the various protections utilized by the Fund and its service providers, systems, networks, or devices potentially can be breached. The Fund and its shareholders could be negatively impacted as a result of a cybersecurity breach.

Cybersecurity breaches can include unauthorized access to systems, networks, or devices; infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. Cybersecurity breaches may cause disruptions and impact the Fund's business operations, potentially resulting in financial losses; interference with the Fund's ability to calculate its NAV; impediments to trading; the inability of the Fund, the Adviser, and other service providers to transact business; violations of applicable privacy and other laws; regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs; as well as the inadvertent release of confidential information.

MANAGEMENT

Investment Adviser

Princeton Fund Advisors, LLC, 1580 Lincoln St. Suite 680, Denver, CO 80203, serves as investment adviser to the Fund. Subject to the authority of the Board of Trustees, the Adviser is responsible for management of the Fund's investment portfolio through the Sub-Adviser. The Adviser is responsible for selecting the Sub-Adviser and monitoring the Sub-Adviser's selection securities and assuring that investments are made according to the Fund's investment objective, policies and restrictions. Additionally, the Adviser is responsible for conducting initial and ongoing independent evaluation of the Fund's asset allocation. The Adviser was established in 2011 for the purpose of advising individuals and institutions. As of April 30, 2016, the Adviser had approximately \$902 million in assets under management.

Greg Anderson and John L. Sabre, Managing, Members of Princeton, are responsible for the Adviser's oversight role with respect to the Fund. Prior to founding Princeton in 2011 and Mount Yale Asset Management, LLC ("Mount Yale") in 1999, Mr. Anderson was a Senior Vice President and Managing Director of Investment Manager Search, Evaluation, and Due Diligence at Portfolio Management Consultants, Inc. Mr. Anderson was previously employed with Deloitte & Touche where he specialized in the areas of estate planning, health care and non-profit organizations, and tax and personal finance planning for high net worth individuals. Mr. Anderson holds a B.A. degree from Hamline University in Minnesota and a J.D. from the University of Minnesota School of Law. Mr. Anderson is a Certified Public Accountant (inactive).

Prior to founding Princeton in 2011, Mr. Sabre served as the Chairman and Chief Executive Officer of Mount Yale from 2001 to 2011. Prior to 2001, Mr. Sabre was a Senior Managing Director at Bear Stearns & Co. and Head of the Mezzanine Capital Group. Mr. Sabre previously served as President of First Dominion Capital, which managed \$3.0 billion of assets and is now owned by Credit Suisse First Boston. Prior to his position at First Dominion Capital, Mr. Sabre was a Managing Director and founding partner of Indosuez Capital, the merchant banking division of Credit Agricole Indosuez. Mr. Sabre holds a B.S. degree from the Carlson School at the University of Minnesota and an M.B.A. degree from the Wharton School at the University of Pennsylvania.

Pursuant to an advisory agreement between the Fund and the Adviser, the Adviser is entitled to receive, on a monthly basis, an annual advisory fee equal to 1.00% of the Fund's average daily net assets. The Adviser pays the Sub-Adviser out of the fee it receives from the Fund. The Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Fund, until at least August 31, 2017, to ensure that Total Annual Fund Operating Expenses After Fee Waiver and/or Reimbursement (exclusive of any front-end or contingent deferred loads; (ii) brokerage fees and commissions; (iii) acquired fund fees and expenses; (iv) fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example options and swap fees and expenses); (v) borrowing costs (such

as interest and dividend expense on securities sold short); (vi) taxes; and (vii) extraordinary expenses, such as litigation expenses (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser) do not exceed 1.50% and 1.25% for Class A and Class I shares, respectively; subject to possible recoupment from the Fund in future years on a rolling three year basis (within the three years after the fees have been waived or reimbursed) if such recoupment can be achieved within the foregoing expense limits. Fee waiver and reimbursement arrangements can decrease the Fund's expenses and boost its performance. For the fiscal period ended April 30, 2016, the Fund paid an investment advisory fee to the Adviser at an annual rate of 0.00% of the average daily net assets of the Fund after waivers and reimbursements. A discussion regarding the basis for the Board of Trustees' approval of the advisory agreement is available in the Fund's annual report to shareholders dated April 30, 2016.

Investment Sub-Adviser

AthenaInvest, Advisors, LLC, located at 5340 South Quebec Suite 365-N, Greenwood Village, CO 80111, serves as sub-adviser to the Fund. Subject to the authority of the Board of Trustees and oversight by the Adviser.

The Sub-Adviser is responsible for management of the Fund's investment portfolio. The Sub-Adviser is responsible for selecting investments and assuring that investments are made according to the Fund's investment objective, policies and restrictions. The Sub-Adviser was established for the purpose of advising individuals and institutions. As of April 30, 2016, the Sub-Adviser had approximately \$145.6 million in assets under management and \$172.6 million of assets under advisement for a combined \$316.2 million. Pursuant to a sub-advisory agreement between the Adviser and the Sub-Adviser, the Sub-Adviser is entitled to receive, on a monthly basis, an advisory fee equal to 40% of the advisory fee received by the Adviser less certain expenses. The Sub-Adviser is paid by the Adviser, not the Fund.

Portfolio Managers

C. Thomas Howard, PhD
CEO and Director of Research

Dr. Howard founded AthenaInvest Inc. in 2005 and its wholly owned subsidiary AthenaInvest Advisors LLC in 2008 and currently serves as Chief Executive Officer, Director of Research, and Chief Investment Officer. Dr. Howard's responsibilities include conducting the basic research underlying the Sub-Advisor's investment processes; structuring and monitoring investment portfolios; and making all buy and sell decisions. Dr. Howard is a Professor Emeritus at the Reiman School of Finance, Daniels College of Business, University of Denver, where for over 30 years he taught courses and published articles in the areas of investment management and international finance. Dr. Howard received a BS in Mechanical Engineering at the University of Idaho. Dr. Howard then entered Oregon State University, where he received an MS in Management Science after which he received a Ph.D. in Finance from the University of Washington.

Andrew C. Howard
Vice President: Portfolio Manager

Mr. Howard joined Athena in October 2006. Mr. Howard designed, developed and implemented the company's patented stock and mutual fund research database. Mr. Howard is co-portfolio manager and research analyst on all Athena portfolios with his father professor C. Thomas Howard, PhD. Mr. Howard also trades all Athena portfolios across multiple models and platforms. Prior to joining Athena, Mr. Howard was a software development consultant to Fortune 500 firms. Mr. Howard spent the first years of his career as a corporate financial analyst with Sony Online Entertainment, Leica Geosystems, and StorageTek. Mr. Howard earned his BS in Finance in 1999 from the Daniels College of Business at the University of Denver, where he was a Chancellor's Scholar.

HOW SHARES ARE PRICED

The net asset value ("NAV") and offering price (NAV plus any applicable sales charges) of each class of shares is determined at 4:00 p.m. (Eastern Time) on each day the New York Stock Exchange ("NYSE") is open for business. NAV is computed by determining, on a per class basis, the aggregate market value of all assets of the Fund, less its liabilities, divided by the total number of shares outstanding ((assets-liabilities)/number of shares = NAV). The NYSE is closed on weekends and New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. The NAV takes into account, on a per class basis, the expenses and fees of the Fund, including management, administration, and distribution fees, which are accrued daily. The determination of NAV for a share class for a particular day is applicable to all applications for the purchase of shares, as well as all requests for the redemption of shares, received by the Fund (or an authorized broker or agent, or its authorized designee) before the close of trading on the NYSE on that day.

Generally, the Fund's securities are valued each day at the last quoted sales price on each security's primary exchange. Securities traded or dealt in upon one or more securities exchanges (whether domestic or foreign) for which market quotations are readily available and not subject to restrictions against resale shall be valued at the last quoted sales price on the primary exchange or, in the absence of a sale on the primary exchange, at mean between the current bid and ask prices on such exchange. Securities primarily traded in the National Association of Securities Dealers' Automated Quotation System ("NASDAQ") National Market System for which market quotations are readily available shall be valued using the NASDAQ Official Closing Price. If market quotations are not readily available, securities will be valued at their fair market value as determined using the "fair value" procedures approved by the Board. Fair value pricing involves subjective judgments and it is possible that the fair value determined for a security may be materially different than the value that could be realized upon the sale of that security. The fair value prices can differ from market prices when they become available or when a price becomes available. The Board has delegated execution of these procedures to a fair value team composed of one or more representatives from each of the (i) Trust, (ii) administrator, and (iii) adviser. The team may also enlist third party consultants such as an audit firm or financial officer of a security issuer on an as-needed basis to assist in determining a security-specific fair value. The Board reviews and ratifies the execution of this process and the resultant fair value prices at least quarterly to assure the process produces reliable results.

The Fund may use independent pricing services to assist in calculating the value of the Fund's securities. In addition, market prices for foreign securities are not determined at the same time of day as the NAV for the Fund. Because the Fund may invest in Underlying Funds which hold portfolio securities primarily listed on foreign exchanges, and these exchanges may trade on weekends or other days when the Underlying Funds do not price their shares, the value of some of the Fund's portfolio securities may change on days when you may not be able to buy or sell Fund shares. In computing the NAV, the Fund values foreign securities held by the Fund at the latest closing price on the exchange in which they are traded immediately prior to closing of the NYSE. Prices of foreign securities quoted in foreign currencies are translated into U.S. dollars at current rates. If events materially affecting the value of a security in the Fund's portfolio, particularly foreign securities, occur after the close of trading on a foreign market but before the Fund prices its shares, the security will be valued at fair value. For example, if trading in a portfolio security is halted and does not resume before the Fund calculates its NAV, the Adviser may need to price the security using the Fund's fair value pricing guidelines. Without a fair value price, short-term traders could take advantage of the arbitrage opportunity and dilute the NAV of long-term investors. Fair valuation of the Fund's portfolio securities can serve to reduce arbitrage opportunities available to short-term traders, but there is no assurance that fair value pricing policies will prevent dilution of the Fund's NAV by short term traders. The determination of fair value involves subjective judgments. As a result, using fair value to price a security may result in a price materially different from the prices used by other mutual funds to determine net asset value, or from the price that may be realized upon the actual sale of the security.

With respect to any portion of the Fund's assets that are invested in one or more open-end management investment companies registered under the 1940 Act, each Fund's net asset value is calculated based upon the net asset values of those open-end management investment companies, and the prospectuses for these companies explain the circumstances under which those companies will use fair value pricing and the effects of using fair value pricing.

Share Classes

This Prospectus describes three classes of shares offered by the Fund. The main differences between the share classes are ongoing fees, minimum investments and sales charges. Class A shares pay an annual fee of up to 0.25% for distribution expenses pursuant to a plan under Rule 12b-1, and Class I shares do not pay such fees. Class A shares have a maximum sales charge of 5.75% and Class I shares have none; and minimum investment amounts also vary. For information on ongoing distribution fees, see **Distribution Fees** on page 17 of this Prospectus. In choosing which class of shares to purchase, you should consider which will be most beneficial to you, given the amount of your purchase. All classes of shares in the Fund represent interest in the same portfolio of investments in the Fund. Not all shares classes may be available for purchase in all states.

Class A Shares

Class A shares are offered at their public offering price, which is NAV plus the applicable sales charge and is subject to 12b-1 distribution fees of up to 0.25% of the average daily net assets of Class A shares. The minimum initial investment in Class A shares of the Fund is \$2,500 for retirement plan accounts and \$2,500 for all other accounts. The minimum subsequent investment in Class A shares of the Fund is \$100. These investment minimums may be waived by the Adviser. The sales charge varies, depending on how much you invest. There are no sales charges on reinvested distributions. The sales charges described below, which may be waived in the Adviser's discretion, apply to your purchases of Class A shares of the Fund:

Amount Invested	Sales Charge as a% of Offering Price ⁽¹⁾	Sales Charge as a% of Amount Invested	Dealer Reallowance
Under \$25,000	5.75%	6.10%	5.00%
\$25,000 to \$49,999	5.00%	5.26%	4.25%
\$50,000 to \$99,999	4.75%	4.99%	4.00%
\$100,000 to \$249,999	3.75%	3.83%	3.25%
\$250,000 to \$499,999	2.50%	2.56%	2.00%
\$500,000 to \$999,999	2.00%	2.04%	1.75%
\$1,000,000 and above	1.00%	1.01%	1.00%

(1) Offering price includes the front-end sales load. The sales charge you pay may differ slightly from the amount set forth above because of rounding that occurs in the calculation used to determine your sales charge.

How to Reduce Your Sales Charge

You may be eligible to purchase Class A shares at a reduced sales charge. To qualify for these reductions, you must notify the Fund's distributor, Northern Lights Distributors, LLC (the "Distributor"), in writing and supply your account number at the time of purchase. You may combine your purchase with those of your "immediate family" (your spouse and your children under the age of 21) for purposes of determining eligibility. If applicable, you will need to provide the account numbers of your spouse and your minor children as well as the ages of your minor children.

Rights of Accumulation: To qualify for the lower sales charge rates that apply to larger purchases of Class A shares, you may combine your new purchases of Class A shares with Class A shares of the Fund that you already own. The applicable initial sales charge for the new purchase is based on the total of your current purchase and the current value of all other Class A shares that you own. The reduced sales charge will apply only to current purchases and must be requested in writing when you buy your shares.

Shares of the Fund held as follows cannot be combined with your current purchase for purposes of reduced sales charges:

- Shares held indirectly through financial intermediaries other than your current purchase broker-dealer (for example, a different broker-dealer, a bank, a separate insurance company account or an investment adviser);
- Shares held through an administrator or trustee/custodian of an Employer Sponsored Retirement Plan (for example, a 401(k) plan) other than employer-sponsored IRAs;
- Shares held directly in the Fund account on which the broker-dealer (financial adviser) of record is different than your current purchase broker-dealer.

Letters of Intent: Under a Letter of Intent ("LOI"), you commit to purchase a specified dollar amount of Class A shares of the Fund, with a minimum of \$25,000, during a 13-month period. At your written request, Class A shares purchases made during the previous 90 days may be included. The amount you agree to purchase determines the initial sales charge you pay. If the full-face amount of the LOI is not invested by the end of the 13-month period, your account will be adjusted to the higher initial sales charge level for the amount actually invested. You are not legally bound by the terms of your LOI to purchase the amount of your shares stated in the LOI. The LOI does, however, authorize the Fund to hold in escrow 5% of the total amount you intend to purchase. If you do not complete the total intended purchase at the end of the 13 month period, the Fund's transfer agent will redeem the necessary portion of the escrowed shares to make up the difference between the reduced rate sales charge (based on the amount you intended to purchase) and the sales charge that would normally apply (based on the actual amount you purchased).

Repurchase of Class A Shares: If you have redeemed Class A shares of the Fund within the past 120 days, you may repurchase an equivalent amount of Class A shares of the Fund at NAV, without the normal front-end sales charge. In effect, this allows you to reacquire shares that you may have had to redeem, without repaying the front-end sales charge. You may exercise this privilege only once and must notify the Fund that you intend to do so in writing. The Fund must receive your purchase order within 120 days of your redemption. Note that if you reacquire shares through separate installments (e.g., through monthly or quarterly repurchases), the sales charge waiver will only apply to those portions of your repurchase order received within 120 days of your redemption.

Sales Charge Waivers

The sales charge on purchases of Class A shares is waived for certain types of investors, including:

- Current and retired directors and officers of the Fund sponsored by the Adviser or any of its subsidiaries, their families (e.g., spouse, children, mother or father) and any purchases referred through the Adviser.

- Employees of the Adviser and their families, or any full-time employee or registered representative of the distributor or of broker-dealers having dealer agreements with the distributor (a "Selling Broker") and their immediate families (or any trust, pension, profit sharing or other benefit plan for the benefit of such persons).
- Any full-time employee of a bank, savings and loan, credit union or other financial institution that utilizes a Selling Broker to clear purchases of the fund's shares and their immediate families.
- Participants in certain "wrap-fee" or asset allocation programs or other fee-based arrangements sponsored by broker-dealers and other financial institutions that have entered into agreements with the distributor.
- Clients of financial intermediaries that have entered into arrangements with the distributor providing for the shares to be used in particular investment products made available to such clients and for which such registered investment advisers may charge a separate fee.
- Institutional investors (which may include bank trust departments and registered investment advisers).
- Any accounts established on behalf of registered investment advisers or their clients by broker-dealers that charge a transaction fee and that have entered into agreements with the distributor.
- Separate accounts used to fund certain unregistered variable annuity contracts or Section 403(b) or 401(a) or (k) accounts.
- Employer-sponsored retirement or benefit plans with total plan assets in excess of \$5 million where the plan's investments in the Fund are part of an omnibus account. A minimum initial investment of \$1 million in the Fund is required. The distributor in its sole discretion may waive these minimum dollar requirements.

The Fund does not waive sales charges for the reinvestment of proceeds from the sale of shares of a different fund where those shares were subject to a front-end sales charge (sometimes called a "NAV transfer"). Whether a sales charge waiver is available for your retirement plan or charitable account depends upon the policies and procedures of your intermediary. Please consult your financial adviser for further information.

Class C Shares: Class C shares of the Fund are offered at their NAV without an initial sales charge. This means that 100% of your initial investment is placed into shares of the Fund. Class C shares pay up to 1.00% on an annualized basis of the average daily net assets as reimbursement or compensation for service and distribution-related activities with respect to the Fund and/or shareholder services. Over time, fees paid under this distribution and service plan will increase the cost of a Class C shareholder's investment and may cost more than other types of sales charges. The minimum initial investment in Class C shares of the Fund is \$2,500 for retirement plan accounts and \$2,500 for all other accounts. The minimum subsequent investment in Class C shares of the Fund is \$100 for retirement plan accounts and \$100 for all other accounts. These investment minimums may be waived by the Adviser.

Class I Shares: Class I shares of the Fund are sold at NAV without an initial sales charge and are not subject to 12b-1 distribution fees, but have a higher minimum initial investment than Class A and Class C shares. This means that 100% of your initial investment is placed into shares of the Fund. Class I shares require a minimum initial investment of \$100,000 and minimum subsequent investment of \$100. These investment minimums may be waived by the Adviser.

HOW TO PURCHASE SHARES

Purchasing Shares: You may purchase shares of the Fund by sending a completed application form to the following address:

via Regular Mail:
ATHENA VALUE FUND
 c/o Gemini Fund Services, LLC
 P.O. Box 541150
 Omaha, Nebraska 68154

or Overnight Mail:
ATHENA VALUE FUND
 c/o Gemini Fund Services, LLC
 17605 Wright Street, Suite 2
 Omaha, Nebraska 68130

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the Application, you should supply your full name, date of birth, social security number and permanent street address. Mailing addresses containing a P.O. Box will not be accepted. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct. Shares of the Fund, or certain classes, may not be available for purchase in every state.

Purchase through Brokers: You may invest in the Fund through brokers or agents who have entered into selling agreements with the Fund's distributor. The brokers and agents are authorized to receive purchase and redemption orders on behalf of the Fund. Such brokers are authorized to designate other intermediaries to receive purchase and redemption orders on the fund's behalf. The Fund will be deemed to have received a purchase or redemption order when an authorized broker or its designee receives the order. The broker or agent may set their own initial and subsequent investment minimums. You may be charged a fee if you use a broker or agent to buy or redeem shares of the Fund. Finally, various servicing agents use procedures and impose restrictions that may be in addition to, or different from those applicable to investors purchasing shares directly from the Fund. You should carefully read the program materials provided to you by your servicing agent.

Purchase by Wire: If you wish to wire money to make an investment in the Fund, please call the Fund at 1-888-868-9501 for wiring instructions and to notify the Fund that a wire transfer is coming. Any commercial bank can transfer same-day funds via wire. The Fund will normally accept wired funds for investment on the day received if they are received by the Fund's designated bank before the close of regular trading on the NYSE. Your bank may charge you a fee for wiring same-day funds.

Automatic Investment Plan: You may participate in the Fund's Automatic Investment Plan, an investment plan that automatically moves money from your bank account and invests it in the Fund through the use of electronic funds transfers or automatic bank drafts. You may elect to make subsequent investments by transfers of a minimum of \$100 on specified days of each month into your established Fund account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Investment Plan.

The Fund, however, reserves the right, in its sole discretion, to reject any application to purchase shares. Applications will not be accepted unless they are accompanied by a check drawn on a U.S. bank, thrift institutions, or credit union in U.S. funds for the full amount of the shares to be purchased. After you open an account, you may purchase additional shares by sending a check together with written instructions stating the name(s) on the account and the account number, to the above address. Make all checks payable to "Athena Value Fund." The Fund will not accept payment in cash, including cashier's checks or money orders. Also, to prevent check fraud, the Fund will not accept third party checks, U.S. Treasury checks, credit card checks or starter checks for the purchase of shares.

Note: Gemini Fund Services, LLC, the Fund's transfer agent, will charge a \$25 fee against a shareholder's account, in addition to any loss sustained by the Fund, for any check returned to the transfer agent for insufficient funds.

When Order is Processed: All shares will be purchased at the NAV per share (plus applicable sales charges, if any) next determined after the Fund receives your application or request in good order. All requests received in good order by the Fund before 4:00 p.m. (Eastern Time) will be processed on that same day. Requests received after 4:00 p.m. will be processed on the next business day.

Good Order: When making a purchase request, make sure your request is in good order. "Good order" means your purchase request includes:

- the name of the Fund and share class,
- the dollar amount of shares to be purchased,
- a completed purchase application or investment stub, and
- check payable to the "Athena Value Fund."

Retirement Plans: You may purchase shares of the Fund for your individual retirement plans. Please call the Fund at 1-888-868-9501 for the most current listing and appropriate disclosure documentation on how to open a retirement account.

HOW TO REDEEM SHARES

Redeeming Shares: You may redeem all or any portion of the shares credited to your account by submitting a written request for redemption to:

via Regular Mail:
Athena Value Fund
c/o Gemini Fund Services, LLC
P.O. Box 541150
Omaha, Nebraska 68154

or Overnight Mail:
Athena Value Fund
c/o Gemini Fund Services, LLC
17605 Wright Street, Suite 2
Omaha, Nebraska 68130

Redemptions by Telephone: The telephone redemption privilege is automatically available to all new accounts except retirement accounts. If you do not want the telephone redemption privilege, you must indicate this in the appropriate area on your account application or you must write to the Fund and instruct it to remove this privilege from your account.

The proceeds will be sent by mail to the address designated on your account or wired directly to your existing account in a bank or brokerage firm in the United States as designated on your application. To redeem by telephone, call 1-888-868-9501. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of your telephone instructions. IRA accounts are not redeemable by telephone.

The Fund reserves the right to suspend the telephone redemption privileges with respect to your account if the name(s) or the address on the account has been changed within the previous 30 days. Neither the Fund, the transfer agent, nor their respective affiliates will be liable for complying with telephone instructions they reasonably believe to be genuine or for any loss, damage, cost or expenses in acting on such telephone instructions and you will be required to bear the risk of any such loss. The Fund or the transfer agent, or both, will employ reasonable procedures to determine that telephone instructions are genuine. If the Fund and/or the transfer agent do not employ these procedures, they may be liable to you for losses due to unauthorized or fraudulent instructions. These procedures may include, among others, requiring forms of personal identification prior to acting upon telephone instructions, providing written confirmation of the transactions and/or tape recording telephone instructions.

Redemptions through Broker: If shares of the Fund are held by a broker-dealer, financial institution or other servicing agent, you must contact that servicing agent to redeem shares of the Fund. The servicing agent may charge a fee for this service.

Redemptions by Wire: You may request that your redemption proceeds be wired directly to your bank account. The Fund's transfer agent imposes a \$15 fee for each wire redemption and deducts the fee directly from your account. Your bank may also impose a fee for the incoming wire.

Automatic Withdrawal Plan: If your individual accounts, IRA or other qualified plan account have a current account value of at least \$10,000, you may participate in the Fund's Automatic Withdrawal Plan, an investment plan that automatically moves money to your bank account from the Fund through the use of electronic funds transfers. You may elect to make subsequent withdrawals by transfers of a minimum of \$100 on specified days of each month into your established bank account. Please contact the Fund at 1-888-868-9501 for more information about the Fund's Automatic Withdrawal Plan.

Redemptions in Kind: The Fund reserves the right to honor requests for redemption or repurchase orders by making payment in whole or in part in readily marketable securities ("redemption in kind") if the amount is greater than the lesser of \$250,000 or 1% of the Fund's assets. The securities will be chosen by the Fund and valued under the Fund's net asset value procedures. A shareholder will be exposed to market risk until these securities are converted to cash and may incur transaction expenses in converting these securities to cash.

When Redemptions are Sent: Once the Fund receives your redemption request in "good order" as described below, it will issue a check based on the next determined NAV following your redemption request. The redemption proceeds normally will be sent by mail or by wire within three business days after receipt of a request in "good order." If you purchase shares using a check and soon after request a redemption, your redemption proceeds will not be sent until the check used for your purchase has cleared your bank.

Good Order: Your redemption request will be processed if it is in "good order."

To be in good order, the following conditions must be satisfied:

- the request should be in writing, unless redeeming by telephone, indicating the number of shares or dollar amount to be redeemed;
- the request must identify your account number;
- the request should be signed by you and any other person listed on the account, exactly as the shares are registered; and
- if you request that the redemption proceeds be sent to a person, bank or an address other than that of record or paid to someone other than the record owner(s), or if the address was changed within the last 30 days, or if the proceeds of a requested redemption exceed \$50,000, the signature(s) on the request must be medallion signature guaranteed by an eligible signature guarantor.

When You Need Medallion Signature Guarantees: If you wish to change the bank or brokerage account that you have designated on your account, you may do so at any time by writing to the Fund with your signature guaranteed. A medallion signature guarantee assures that a signature is genuine and protects you from unauthorized account transfers. You will need your signature guaranteed if:

- you request a redemption to be made payable to a person not on record with the Fund;
- you request that a redemption be mailed to an address other than that on record with the Fund;
- the proceeds of a requested redemption exceed \$50,000;
- any redemption is transmitted by federal wire transfer to a bank other than the bank of record; or
- your address was changed within 30 days of your redemption request.

Signatures may be guaranteed by any eligible guarantor institution (including banks, brokers and dealers, credit unions, national securities exchanges, registered securities associations, clearing agencies and savings associations). Further documentation will be required to change the designated account if shares are held by a corporation, fiduciary or other organization. *A notary public cannot guarantee signatures.*

Retirement Plans: If you own an IRA or other retirement plan, you must indicate on your redemption request whether the Fund should withhold federal income tax. Unless you elect in your redemption request that you do not want to have federal tax withheld, the redemption will be subject to withholding.

Low Balances: If at any time your account balance in the Fund falls below \$2,500, the Fund may notify you that, unless the account is brought up to at least \$2,500 within 60 days of the notice; your account could be closed. After the notice period, the Fund may redeem all of your shares and close your account by sending you a check to the address of record. Your account will not be closed if the account balance drops below \$2,500 due to a decline in NAV.

FREQUENT PURCHASES AND REDEMPTIONS OF FUND SHARES

The Fund discourages and does not accommodate market timing or other disruptive trading activities. Frequent trading into and out of the Fund can harm all Fund shareholders by disrupting the Fund's investment strategies, increasing Fund expenses, decreasing tax efficiency and diluting the value of shares held by long-term shareholders. The Fund is designed for long-term investors and is not intended for market timing or other disruptive trading activities. Accordingly, the Fund's Board has approved policies that seek to curb these disruptive activities while recognizing that shareholders may have a legitimate need to adjust their Fund investments as their financial needs or circumstances change. The Fund uses various methods to reduce the risk of market timing.

These methods include committing staff to review, on a continuing basis, recent trading activity in order to identify trading activity that may be contrary to the Fund's "Market Timing Trading Policy." Though these methods involve judgments that are inherently subjective and involve some selectivity in their application, the Fund seeks to make judgments and applications that are consistent with the interests of the Fund's shareholders.

Based on the frequency of redemptions in your account, the Adviser or transfer agent may in its sole discretion determine that your trading activity is detrimental to the Fund as described in the Fund's Market Timing Trading Policy and elect to reject or limit the amount, number, frequency or method for requesting future purchases or exchanges into the Fund.

The Fund reserves the right to reject or restrict purchase requests for any reason, particularly when the shareholder's trading activity suggests that the shareholder may be engaged in market timing or other disruptive trading activities. Neither the Fund nor the Adviser will be liable for any losses resulting from rejected purchase orders. The Adviser may also bar an investor who has violated these policies (and the investor's financial adviser) from opening new accounts with the Fund.

Although the Fund attempts to limit disruptive trading activities, some investors use a variety of strategies to hide their identities and their trading practices. There can be no guarantee that the Fund will be able to identify or limit these activities. Omnibus account arrangements are common forms of holding shares of the Fund. While the Fund will encourage financial intermediaries to apply the Fund's Market Timing Trading Policy to their customers who invest indirectly in the Fund, the Fund is limited in its ability to monitor the trading activity or enforce the Fund's Market Timing Trading Policy with respect to customers of financial intermediaries. For example, should it occur, the Fund may not be able to detect market timing that may be facilitated by financial intermediaries or made difficult to identify in the omnibus accounts used by those intermediaries for aggregated purchases, exchanges and redemptions on behalf of all their customers. More specifically, unless the financial intermediaries have the ability to apply the Fund's Market Timing

Trading Policy to their customers through such methods as implementing short-term trading limitations or restrictions and monitoring trading activity for what might be market timing, the Fund may not be able to determine whether trading by customers of financial intermediaries is contrary to the Fund's Market Timing Trading Policy. However, the Fund will ensure that financial intermediaries maintaining omnibus accounts on behalf of the Fund enter into an agreement with the Fund to provide shareholder transaction information, to the extent known to the financial intermediary, to the Fund upon request.

TAX STATUS, DIVIDENDS AND DISTRIBUTIONS

Any sale or exchange of the Fund's shares may generate tax liability (unless you are a tax-exempt investor or your investment is in a qualified retirement account). When you redeem your shares you may realize a taxable gain or loss. This is measured by the difference between the proceeds of the sale and the tax basis for the shares you sold. (To aid in computing your tax basis, you generally should retain your account statements for the period that you hold shares in the Fund.)

The Fund intends to make at least annual distributions, which would include substantially all of its net investment income and may also include a portion which may be a return of capital. The Fund intends to make net capital gains distributions annually in December. Distributions will be reinvested in shares of the Fund unless you elect to receive cash. Dividends from net investment income (including any excess of net short-term capital gain over net long-term capital loss) are taxable to investors as ordinary income, while distributions of net capital gain (the excess of net long-term capital gain over net short-term capital loss) are generally taxable as long-term capital gain, regardless of your holding period for the shares. Any dividends or capital gain distributions you receive from the Fund will normally be taxable to you when made, regardless of whether you reinvest dividends or capital gain distributions or receive them in cash. Certain dividends or distributions declared in October, November or December will be taxed to shareholders as if received in December if they are paid during the following January.

However, pursuant to its distribution policy, the Fund may make distributions that are treated as a return of capital, in part, because a portion of an MLP's distributions to the Fund may represent a return of capital and are therefore not included in the distributions of net investment income and net capital gains described above. Return of capital is the portion of a distribution that is the return of your original investment dollars in the Fund. A return of capital is not taxable to a shareholder unless it exceeds a shareholder's tax basis in the shares. Returns of capital reduce a shareholder's tax cost (or "tax basis"). Once a shareholder's tax basis is reduced to zero, any further return of capital would be taxable. The Fund will provide disclosures, with each distribution, that estimate the percentages of the current and year-to-date distributions that represent (1) net investment income, (2) capital gains and (3) return of capital. At the end of the year, the Fund may be required under applicable law to re-characterize distributions made previously during that year among (1) ordinary income, (2) qualifying dividends, (3) capital gains and (4) return of capital for tax purposes. Each year the Fund will inform you of the amount and type of your distributions. IRAs and other qualified retirement plans are exempt from federal income taxation until retirement proceeds are paid out to the participant.

Your redemptions, including exchanges, may result in a capital gain or loss for federal tax purposes. A capital gain or loss on your investment is the difference between the cost of your shares, including any sales charges, and the amount you receive when you sell them.

On the account application, you will be asked to certify that your social security number or taxpayer identification number is correct and that you are not subject to backup withholding for failing to report income to the IRS. If you are subject to backup withholding or you did not certify your taxpayer identification number, the IRS requires the Fund to withhold a percentage of any dividend, redemption or exchange proceeds. The Fund reserves the right to reject any application that does not include a certified social security or taxpayer identification number. If you do not have a social security number, you should indicate on the purchase form that your application to obtain a number is pending. The Fund is required to withhold taxes if a number is not delivered to the Fund within seven days.

This summary is not intended to be and should not be construed to be legal or tax advice. You should consult your own tax advisers to determine the tax consequences of owning the Fund's shares.

DISTRIBUTION OF SHARES

Distributor: Northern Lights Distributors, LLC, 17605 Wright Street, Omaha, Nebraska 68130, is the distributor for the shares of the Fund. Northern Lights Distributors, LLC is a registered broker-dealer and member of the Financial Industry Regulatory Authority, Inc. ("FINRA"). Shares of the Fund are offered on a continuous basis.

Distribution (12b-1) and Shareholder Servicing Fees: The Trust, with respect to the Fund, has adopted the Trust's Master Distribution and Shareholder Servicing Plans for Class A shares (the "Plans"), pursuant to Rule 12b-1 Plan of the 1940 Act, which allow the Fund to pay the Fund's distributor an annual fee for distribution and shareholder servicing expenses of up to 0.25% of the Fund's average daily net assets attributable to Class A shares. Because these fees are paid out of the Fund's assets on an on-going basis, over time these fees will increase the cost of your investment and may cost you more than paying other types of sales charges.

The Fund's distributor and other entities are paid pursuant to the Plans for distribution and shareholder servicing provided and the expenses borne by the distributor and others in the distribution of Fund shares, including the payment of commissions for sales of the shares and incentive compensation to and expenses of dealers and others who engage in or support distribution of shares or who service shareholder accounts, including overhead and telephone expenses; printing and distribution of prospectuses and reports used in connection with the offering of the Fund's shares to other than current shareholders; and preparation, printing and distribution of sales literature and advertising materials. In addition, the distributor or other entities may utilize fees paid pursuant to the Plan to compensate dealers or other entities for their opportunity costs in advancing such amounts, which compensation would be in the form of a carrying charge on any unreimbursed expenses.

Additional Compensation to Financial Intermediaries: The Distributor, the Fund's affiliates, and the Adviser and their affiliates may each, at their own expense and out of their own assets, including their legitimate profits from Fund-related activities, provide additional cash payments or reimbursement for travel or other expenses, to financial intermediaries who sell shares of the Fund or assist in the marketing of the Fund. Financial intermediaries include brokers, financial planners, banks, insurance companies, retirement or 401(k) plan administrators and others. These payments may be in addition to the Rule 12b-1 fees and any sales charges that are disclosed elsewhere in this Prospectus. These payments are generally made to financial intermediaries that provide shareholder or administrative services, or marketing support. Marketing support may include access to sales meetings, due diligence conferences (including the costs of attending adviser-sponsored due diligence conferences), conference sponsorships, sales representatives and financial intermediary management representatives, inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs. These payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The distributor may, from time to time, provide promotional incentives to certain investment firms. Such incentives may, at the distributor's discretion, be limited to investment firms who allow their individual selling representatives to participate in such additional compensation.

Householding: To reduce expenses, the Fund mails only one copy of a Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, please call the Fund at 1-888-868-9501 on days the Fund is open for business or contact your financial institution. The Fund will begin sending you individual copies thirty days after receiving your request.

FINANCIAL HIGHLIGHTS

The financial highlights tables are intended to help you understand the Athena Value Fund's financial performance for the period of the Fund's operations. Certain information reflects financial results for a single Fund share. The total returns in the tables represent the rate that an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). This information for the Fund has been derived from the financial statements audited by RSM US LLP, whose report, along with the Fund's financial statements, are included in the Fund's April 30, 2016 annual report. The annual report for April 30, 2016 and semi-annual report dated October 31 2015, which are both available upon request.

Per Share Data and Ratios for a Share of Beneficial Interest Outstanding Throughout Each Period

	Period Ended April 30, 2016 ⁽¹⁾	
	Class A	Class I
Net asset value, beginning of period	\$ 10.00	\$ 10.00
Activity from investment operations:		
Net investment income ⁽²⁾	0.17	0.20
Net realized and unrealized loss on investments	(0.70)	(0.71)
Total from investment operations	(0.53)	(0.51)
Less distributions from:		
Net investment income	(0.09)	(0.10)
Net realized gains ⁽⁷⁾	(0.00)	(0.00)
Total distributions	(0.09)	(0.10)
Net asset value, end of period	\$ 9.38	\$ 9.39
Total return ⁽³⁾⁽⁶⁾	(5.20)%	(4.99)%
Net assets, at end of period (000s)	\$ 1,668	\$ 3,863
Ratio of gross expenses to average net assets ⁽⁴⁾⁽⁵⁾	8.56%	8.31%
Ratio of net expenses to average net assets ⁽⁵⁾	1.50%	1.25%
Ratio of net investment income to average net assets ⁽⁵⁾	2.04%	2.44%
Portfolio Turnover Rate ⁽⁶⁾	34%	34%

(1) The Athena Value Fund Class A shares and Class I shares commenced operations on May 15, 2015.

(2) Per share amounts calculated using the average shares method, which more appropriately presents the per share data for the period.

(3) Total returns shown are historical in nature and assume changes in share price, reinvestment of dividends and distributions, if any, and exclude the effect of applicable sales charges and redemption fees. Total returns would have been lower had the adviser not waived fees and reimbursed expenses.

(4) Represents the ratio of expenses to average net assets absent fee waivers and/or expense reimbursements by the Adviser.

(5) Annualized for periods less than one year.

(6) Not annualized.

(7) Amount less than \$0.005.

PRIVACY NOTICE

Rev. February 2014

FACTS

WHAT DOES NORTHERN LIGHTS FUND TRUST DO WITH YOUR PERSONAL INFORMATION?

Why?

Financial companies choose how they share your personal information. Federal law gives consumers the right to limit some, but not all sharing. Federal law also requires us to tell you how we collect, share, and protect your personal information. Please read this notice carefully to understand what we do.

What?

The types of personal information we collect and share depends on the product or service that you have with us. This information can include:

- Social Security number and wire transfer instructions
- account transactions and transaction history
- investment experience and purchase history

When you are *no longer* our customer, we continue to share your information as described in this notice.

How?

All financial companies need to share customers' personal information to run their everyday business. In the section below, we list the reasons financial companies can share their customers' personal information; the reasons Northern Lights Fund Trust chooses to share; and whether you can limit this sharing.

Reasons we can share your personal information:	Does Northern Lights Fund Trust share information?	Can you limit this sharing?
For our everyday business purposes - such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus.	YES	NO
For our marketing purposes - to offer our products and services to you.	NO	We don't share
For joint marketing with other financial companies.	NO	We don't share
For our affiliates' everyday business purposes - information about your transactions and records.	NO	We don't share
For our affiliates' everyday business purposes - information about your credit worthiness.	NO	We don't share
For nonaffiliates to market to you	NO	We don't share

QUESTIONS?
